PRODUCT DESCRIPTION

Designer: Karim Rashid

Cadmo LED Floor by Artemide

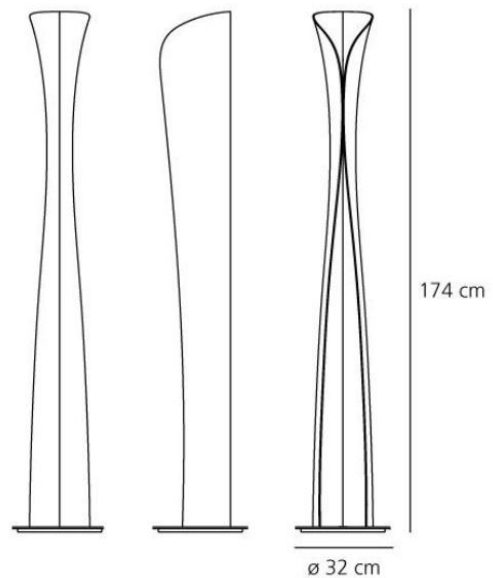

The Cadmo Collection, including a floor and wall light, was designed by Karim Rashid for which he received the Red Dot Award (2010). Cadmo Floor Lamp has a steel panel, which screens and emits a soft direct and indirect light, simultaneously. The diffused light comes from the long vertical opening of the lamp, with the indirect source emits an upwards light.

The lamp takes a combination of integrated LED and retrofit LED lamps, with each light source controlled from a double in line switch on the cable. The switch allows you to independently control the two light sources. The indirect integrated LED source is also dimmable, again controlled from the inline dimmer. The indirect retrofit light source is not dimmable.

The Cadmo floor lamp has a painted steel body in a choice of white or black/white finish and an inox steel base completes its look. You can further select a colour temperature for your Cadmo light, with a choice of 2700K or 3000K. The Cadmo Collection also includes the [Cadmo wall light](#).

PRODUCT SPECIFICATION

- Light Source:** 1 x 10W GU10 LED (included)
- IP Code:** 20
- Dimming:** In line dimmer included on cord (for indirect light only).
- Dimensions:** 176 cm height
32 cm base
