PRODUCT DESCRIPTION

Designer: Davide Groppi

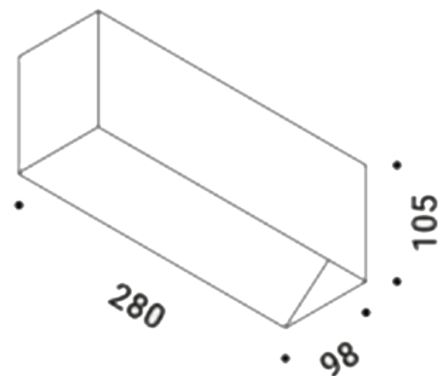

Davide Groppi Piu Wall Light

Davide Groppi designed the Piu Wall Light with pure form and simplicity in mind. The Piu Wall Light can be featured in both commercial and residential environments thanks to its sleek, minimalistic design. The rectangular metal structure merges into the surrounding space and becomes an architectural element. Providing both upward and downward light, this Piu Wall Light can be used decoratively as well as functionally, creating a versatile lighting solution for all situations, whether in the hospitality sector, bars, or restaurants.

The Piu Wall Light is constructed from powder-coated, matte white painted metal. This wall light can be strategically positioned to produce an aesthetically pleasing sequence, resulting in a clean and striking ensemble.
