Foscarini Rituals Pendant Light

We currently have limited stock of this item in our [Clearance section](#).

A new family of suspension lights all concentrated on the diffuser and defined by the volume and material nature of glass.

A collection of three diffuser shapes in a hand-blown glass made using a glass-blowing procedure without turning the glass in the mould (referred to as "stationary"); the striped effect is achieved using a mould with negative decorations which are repeated across the surface of the glass, which is subsequently ground manually "by belt" and which then undergoes immersion in acid in order to emphasise the plaster-like effect. Rituals emits a very private, evocative light.

Layer all 3 versions from a central light fitting to create a contemporary waterfall effect, or use them individually around your home for a simple yet elegant touch.

The Foscarini [Rituals Collection](#) also includes ceiling lights, table lamps, wall lamps and XL versions.
