PRODUCT DESCRIPTION

Designer: Matali Crasset

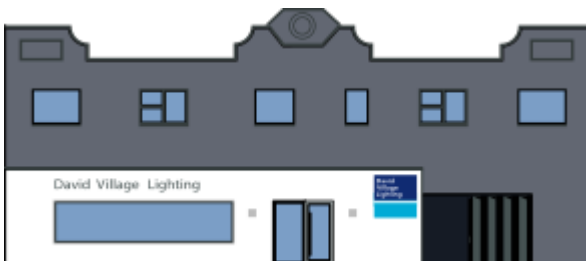

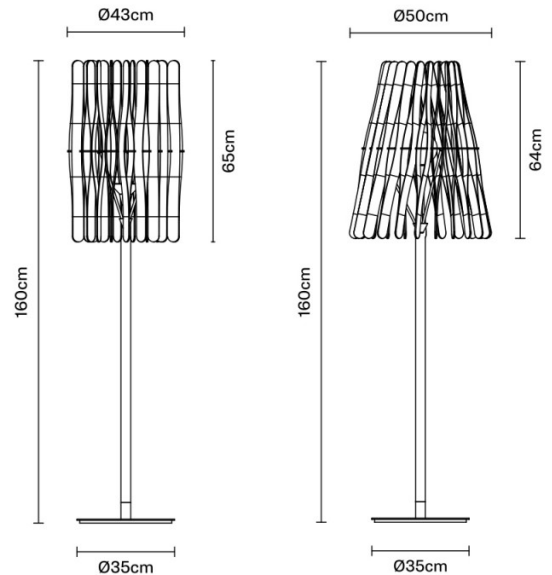

Fabbian Stick Floor Lamp

The Fabbian Stick Floor Lamp was designed by Matali Crasset for Fabbian and offers a natural touch to your interior. It stems from an Ayous wood module for the shade, the shape of which is inspired by that of a pair of pliers: two bent elements stretched by a central support. This shade is available in either a cylindrical or conical shape, both providing different personalities in your space - but both granting you soft and cosy illumination. The lamp structure is offered in coated metal, adding an elegant touch to the wooden shade.

This floor lamp is a great addition to living spaces, bedrooms, hallways and even dining spaces. It can also be utilised in commercial settings, specifically in the hospitality sector in restaurants, bars and hotels.
