PRODUCT DESCRIPTION

Designer: Giuseppe Maurizio Scutella

Pirce Ceiling Mini LED Suspension Light by Artemide

This sculptural and contemporary design by Giuseppe Maurizio Scutellà for Artemide, this is the mini suspension version of Pirce light, an extension to the existing Pirce range. Opening out of a slim disk are fluttering spirals, which fall gently downwards, creating magical effects of form and light in flowing twirls.

In the Pirce Mini Suspension (LED) the lamp itself is placed in the lower dish of the light casting illumination upwards to give indirect light emission making this light by Artemide not only a special light source but also a unique piece of ceiling art. Pirce Mini Suspension is a smaller version of Artemide's original Pirce Suspension light. Its more compact size makes it ideal for smaller spaces in residential or commercial settings alike.

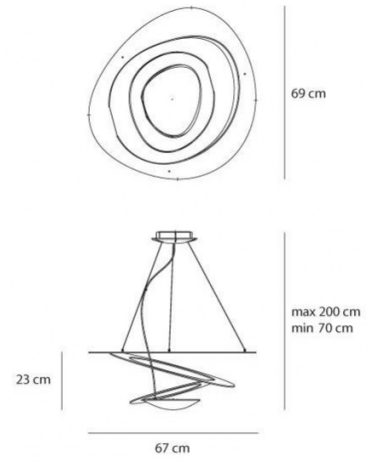

The Artemide Pirce Mini Suspension is now available with incorporated LEDs in this updated version along with the choice of 2 colours; white or gold along with a push button dimming system. This is the LED version of the Pirce Mini Suspension light - the smaller version of the original Pirce Suspension. The Pirce Mini is ideal for smaller spaces that still require a statement feature.

Pirce Mini Suspension is also available in a non-LED version. An even smaller size is available as the Pirce Micro Suspension. See the rest of Artemide's [Pirce Collection](#).

PRODUCT SPECIFICATION

- Light Source:** 44W, 2700K or 3000K, 3097 or 3313 lumens
- IP Code:** 20
- Dimming:** Push to make/ switch dimming, dimmable using push to make switches. Please consult your electrician, additional wiring may be required on site.
- Dimensions:** 69cm width
67cm length
70-200cm drop
