Designer: Greta M. Grossman

Grashoppa Pendant Light by Gubi

The Grashoppa Pendant is a later addition to the [Gubi Grashoppa collection](#) which emerged from Greta M. Grossman's original lamp design in 1947. Although not created by Grossman herself, this light combines her signature steel lamp shade with a long hanging cord to create a functional and elegant light fitting that would look perfect as a ceiling spotlight in either a kitchen or dining setting.

For mounting on the ceiling, the Grashoppa Pendant is equipped with a steel bracket that is covered by a hemispherical brass canopy and tube, which matches the brass-finished tube and fitting on top of the iconic steel shade. The powder-coated shade is available in 4 colours so you can create a uniquely classic but still contemporary look.
