PRODUCT DESCRIPTION

Designer: Marc Sadler

Fabbian Beluga Recessed Light

The Fabbian Beluga Recessed Spotlight is another iconic design by Marc Sadler, combining high-quality materials and optimum functionality for freedom of choice in light orientation. This recessed light is unobtrusive and available in a range of finishes, choose between crystal, red, yellow, blue, copper or green - all utilising a crystal glass shade that is the key feature of the entire collection. This wide choice of colours means that the Beluga Recessed Light can provide contemporary accents in a variety of interiors and match numerous styles.

The spherical diffuser is adjustable within the recessed structure, allowing you to create directed beams of light that can work as functional task lighting. These are a great addition to kitchens, hallways and workspaces. They can also be utilised in commercial settings in the hospitality sector. Stick to one colour scheme or combine multiple different finishes for a more unique look.

Please note, the images show the light fitting with a PAR-20 GU10 lamp but this light source has now been replaced with a PAR-16 GU10 lamp which is slightly narrower and therefore leaves a slight gap between the lamp and the rim of the light fitting. Lamp not included.

PRODUCT SPECIFICATION

Light Source: 1 x Max 50W PAR-16 GU10 (excluded)
