Wood Table Lamp by Muuto

The Wood lamp is the low-tech natural looking response to the high tech and modern table lamps. The use of plain pine wood with an emphasis on the bolts and the white cable running externally put emphasis on the pragmatic and iconic expression of the table lamp.

TAF Architects are based in Stockholm and their designs are making headlines all over the world. They specialise in product and interior design. Commenting on the Wood desk lamp, their design was accomplished by using simple methods and raw material to give the lamp an honest and natural expression.
