PRODUCT DESCRIPTION

Designer: Christian Lava

Terzani Etoile Suspension

Terzani Etoile Suspension was designed by Christian Lava. This excentric design is a homage to the careful attention to detail and commitment to quality that went into its creation. Etoile's intricate network of intersecting lines recalls constellations in a clear night sky. The strategically placed lights cast a starry glow, twinkling and projecting complex patterns throughout the room.

Etoile Suspension excels in commercial establishments, especially bars, hotels and restaurants. Etoile can be dimmed, which makes it perfect for setting the right ambience for any occasion. The structure has been hand-forged and welded in over 500 points to create this impressive, sculptural design that looks different depending on the viewing angle.

Please note: a larger size of the Terzani Etoile Suspension is also available, please [contact us](#) for more information.
