PRODUCT DESCRIPTION

Designer: Omer Arbel

28.1 Pendant Light by Bocci

The 28.1 pendant is made from a special glass blowing technique where air pressure is put in and out of a glass matrix whilst it is rapidly heated and cooled down. What results is an interesting globular shape with cavities that are eye-catching and alluring. The light source is also surrounded by a milk white glass holder which produces a warm and welcoming glow.

The 28.1 pendant lamp comes with an included light bulb, with the choice of either the non-dimmable **LED 1W** bulb or the dimmable **Xenon 20W** bulb. The light bulbs ensure for a long-lasting and energy-saving light fixture. The pendant light can be used in many settings, both at home and professional spaces, and will add an interesting and stylish touch to any interior. Set to any height up to a 300cm drop thanks to the adjustable cable.

This pendant comes with a deep ceiling canopy but is also available to purchase with a mini canopy, shallow canopy, mini outie canopy or a mini innie canopy. Please [contact us](#) for more info and prices.

Please Note: All Bocci Suspension Lights come with a white ceiling canopy as standard. Other finishes are available, please [contact us](#) for more information and pricing.
