PRODUCT DESCRIPTION

Designer: Alex Fernández Camps & Gonzalo Milá

Bover Syra Outdoor LED Pendant

The Bover Syra Outdoor LED Pendant was designed by Alex Fernandez Camps and Gonzalo Mila, and consists of an aluminium structure with a woven shade crafted from synthetic fibre. The LED light source is protected by a weather resistant opal glass diffuser, which softens the light output resulting a calming warm illumination. The aluminium aspects of the Syra Outdoor Pendant are treated with Cataphoresis, an anti rust protection - ensuring a long life for your lighting solution.

Thanks to the IP55 rating, the Bover Syra Outdoor LED Pendant is perfect for illuminating your decking, half enclosed spaces, terraces and porches. This pendant is ideal for small gatherings in your private garden during the long summer nights. It can even be a beautiful addition to public outdoor spaces in the hospitality sector.
