PRODUCT DESCRIPTION

Secto 4201 Pendant Light

The Secto 4201 pendant light is the smaller relative to the larger [4200 suspension](#), the very first Secto pendant lamp design which led to the birth of the rest of the Secto Design collection. Described as “modern and approachable”, the smaller 4201 pendant light by Secto can be used singularly in spaces with lower ceiling height, or in rows and larger groups to provide higher impact. The 4200 collection also includes wall lights, floor lights and table lamps - browse the rest of Secto’s designs [here](#).

Continuing to be handmade in Finland by highly skilled craftsmen, the Secto 4201 pendant light is made from PEFC-certified form-pressed birch, available in its natural form of birch, laminated black or white or with a walnut veneer finishes. The natural birch, white laminated or walnut veneer finishes include a white textile cable and ceiling canopy, while the black laminated finish includes a black textile cable and ceiling canopy.
