PRODUCT DESCRIPTION

Secto Owalo 7030 Wall Light

The Secto Owalo 7030 wall light is perfect for creating an elegant and sophisticated look, emitting a soft, warm light between the slats of Finnish birch. The shade is handmade in Finland, and is available in natural birch, with a walnut veneer or with a black or white lamination. The Owalo 7030 suits bedrooms as a bedside light due to the rotatable arm, and also cosy living areas as additional ambient lighting.

The Secto Owalo 7030 wall light can be both hard wired and affixed to the wall with exposed cabling. For a true Scandinavian aesthetic leave the wiring exposed and plug in to the closest socket, the cable features a handy on/off switch for ease of use. For a cohesive lighting design the Owalo range also includes the [7010 floor lamp](#) and the [7020 table lamp](#).
