### PRODUCT DESCRIPTION

#### Secto 4231 Small Wall Light

The Secto Small 4231 wall light is the smaller version of the [Secto 4230](#) wall light, and provides a warm atmosphere with its soft luminosity. Handmade in Finland, the Secto Small 4231 wall light is comprised of slats of formpressed Finnish birch and can be mounted to walls either upwards or downwards.

The Secto 4231 wall light is available in its natural birch state or with a white or black lamination or a walnut veneer. Typical of Scandinavian design, the Secto 4231 can be installed with or without exposed wiring. If installed with exposed cabling, the 4231 comes complete with 240cm of cable with an integrated on/off switch. The 4200 collection also includes pendant lights, floor lights and table lamps - browse the rest of Secto's designs [here](#).
