## PRODUCT DESCRIPTION

### Secto Atto 5000 LED Pendant Light

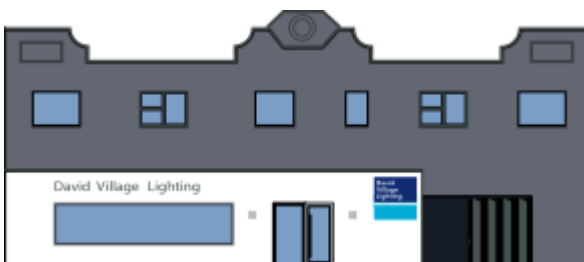

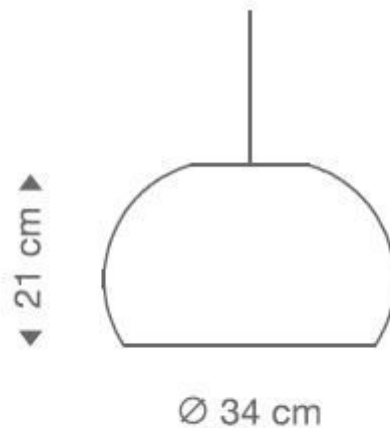

Compact yet bold, the Secto Atto 5000 LED pendant light is handmade in Finnish birch by highly skilled craftsmen in Finland. Providing warm, glare free luminescence, the Atto 5000 is ideal used in bedrooms and living areas. Commercially, the Atto 5000 suits spaces which require a relaxing ambience such as restaurants or shops.

Available in natural birch, with a walnut veneer or a white or black lamination, the Secto Atto 5000 LED pendant light is eye catching enough to be used singularly, but looks extra striking in large spaces which can house multiple suspensions. Secto's collection also includes wall lights, floor lights and table lamps in other designs - browse the rest of Secto's designs [here](#).
