PRODUCT DESCRIPTION

Designer: Jordi Vilardell

Vibia Join Table Lamp

The Vibia Join Table Lamp was designed by Jordi Vilardell and is inspired by minimalist forms. Made from borosilicate glass, the table light consists of a shade within a shade, with a white opal inner diffuser that sits in a clear glass structure. The opal shade conceals the light bulb, allowing for a diffused and warm glow that is comforting and ambient.

The Join table light comes in two sizes, small 5066 or large 5068, allowing you to find the right size for your space. The table lamp is ideally used in bedrooms thanks to its soft glow and can be used on tables, side tables and other surfaces. You can also buy multiple in different sizes to create a light feature and variety within your interior.
