PRODUCT DESCRIPTION

Designer: Giuseppe Maurizio Scutella

Pirce Ceiling Micro LED
Suspension light by Artemide

This sculptural and contemporary design by Giuseppe Maurizio Scutellà for Artemide, this is the suspension version of Pirce light, an extension to the existing Pirce range. Opening out of a slim disk are fluttering spirals, which fall gently downwards, creating magical effects of form and light in flowing twirls.

In the Pirce Micro Suspension the lamp itself is placed in the lower dish of the light casting illumination upwards to give indirect light emission making this light by Artemide not only a special light source but also a unique piece of ceiling art. The Micro Suspension Light is the smallest version of collection, making the Pirce Micro perfect for residential applications - ideal for making a statement over your dining table or as a center piece in your living room or bedroom.

The Artemide Pirce Light is now available with incorporated LEDs in this updated version along with the choice of 2 colours; white or Gold.
