PRODUCT DESCRIPTION

Designer: Carlotta de Bevilacqua & Paola di Arianello

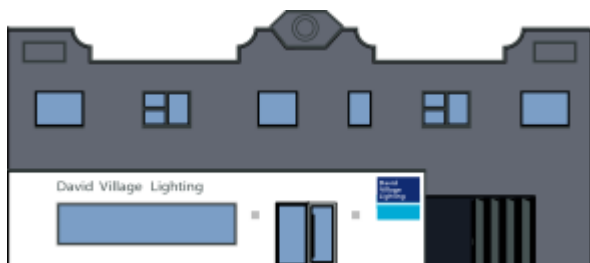

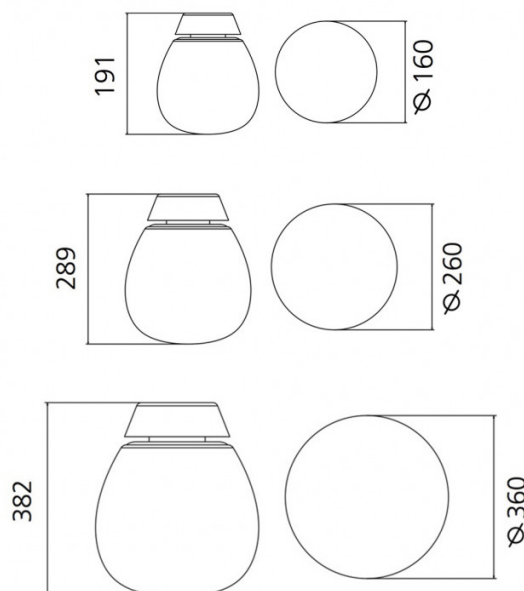

Empatia Wall/Ceiling Light by Artemide

Empatia, or Empathy in English, was created through the combination of traditional glass blowing traditions and Artemide's LED light technology. The great potential of this material has called for the collaboration of Artemide with master glass blowers. This co-operation allowed for full control of the manipulation of the Venetian glass, balancing between light and surface.

Designers Carlotta de Bevilacqua and Paola di Arianello, have chosen the perfect proportions of transparency and opacity to create a glass diffuser that reflects light, no glaring and no efficiency loss. Empatia lights have a core of LED light technology, with the light running through a transparent tube and into the glass diffuser. The collection also includes a [suspension light](#) and [table lamp](#).

PRODUCT SPECIFICATION

Light Source:	Empatia 16 - 11W, 3000K, 567 lumens Empatia 26 - 16W, 3000K, 710 lumens Empatia 36 - 24W, 3000K, 1273 lumens
IP Code:	20
Dimming:	Empatia 16 - Non-dimmable. Empatia 26 & 36 - Dimmable via Push to make/switch dimming systems. Please consult your electrician, additional wiring may be required on site.
Dimensions:	Empatia 16 - Ø 16 cm x 19 cm H Empatia 26 - Ø 26 cm x 29 cm H Empatia 36 - Ø 36 cm x 38 cm H
