PRODUCT DESCRIPTION

Designer: Antoni Arola & Enric Rodríguez

Vibia Bamboo Wall Light

The Vibia Bamboo LED Wall Light was designed by Antoni Arola & Enric Rodríguez and is characterised by its organic and slender silhouette. Inspired by nature, this wall light resembles a bamboo shoot - its namesake, and is available in a natural colour palette that integrates seamlessly with exteriors: choose between off-white, oxide brown or khaki green. The Bamboo Wall Light consists of a singular 'cane' and produces a direct beam of light, providing you with functional illumination that can guide you down a pathway or through your garden.

Display this light individually or as part of a larger group, and choose between positioning the wall light to point the illumination upwards or downwards - this feature allows you to create playful displays of light. Thanks to the IP rating, the Vibia Bamboo Wall Light can be used in outdoor settings and is a beautiful addition to your garden, patio or beside your front door as an entrance light. Similarly, the Bamboo LED Wall Light can also be an excellent addition to hospitality spaces. If you are looking for other applications to compliment this wall lamp, the rest of the [Bamboo collection](#) features both built-in and surface-mounted floor lamps.

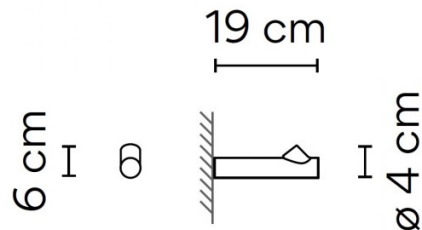

PRODUCT SPECIFICATION

Light Source: 2.1W, 2700K, 199 Lumens

IP Code: 66

Dimming: Non-dimmable.

Dimensions: Ø4cm
Depth: 19cm
