PRODUCT DESCRIPTION

Designer: Bertjan Pot

Prop Light Single by Moooi

A theatrical and bubbly suspension light, the Prop Light Single is part of the collection designed by Bertjan Pot for Moooi. Pot, when commenting on his design, said it is hard for him to imagine any interior where a Prop Light is not present. The Prop Light Single suspension has 18 glass bulbs on its lower surface, as opposed to the [Prop Light Double Horizontal](#), which has bulbs on both sides. Pot is also known to experiment with a variety of materials, and through trial and error, his unique designs are born.

The Prop Light Single, with its simple design and lack of colour, can be installed in any interior space whether residential or commercial. The suspension can hang from both low or high ceilings, while always maintaining an evenly distributed ambience. The [Prop Light Collection](#) was created with versatility in mind, and comes in different shapes and sizes; linear or round, vertical or horizontal, with lights one or both sides.

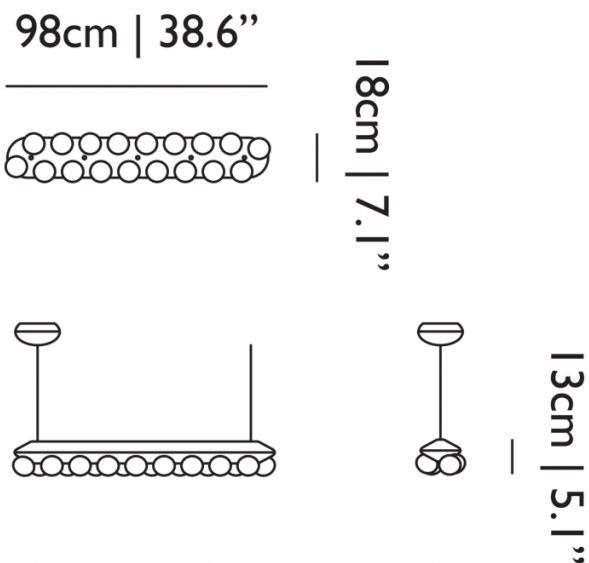

PRODUCT SPECIFICATION

Light Source: 10.3W, 2700K, 800 Lumens

IP Code: 20

Dimming: Dimmable via trailing edge dimming.

Dimensions: Length: 98cm
Width: 18cm
