PRODUCT DESCRIPTION

Designer: Michael Anastassiades

IC Floor Lamp by Flos

We currently have limited stock of one of these items in our Clearance section.

The IC floor lamp, designed by Michael Anastassiades, explores balance and materials. The floor lamp takes the form of a sphere that is perfectly balanced on the edge of a rod that is either finished in brass, chrome or black. The glossy glass lampshade conceals the light bulb, producing a soft and diffused glow that is comforting and inviting.

The IC floor light also comes with a dimmer switch on the cable, allowing you to control the light setting to create the exact atmosphere you want in your interior. The chic and elegant style of the floor light makes it suitable for many settings, and the 2 sizes available—the smaller F1 and the larger F2—assures that you can find the right fit for your space.
