PRODUCT DESCRIPTION

Designer: Arik Levy

Vibia Wireflow Lineal LED Suspension

Designed by architect Arik Levy, the Vibia Wireflow Lineal LED Suspension features the same iconic black electrical cables as the other Wireflow collections, but are configured together in 2D shapes. Each of these black cables features an integrated LED light source at its end, providing a functional downlight that can be supplied with or without a diffuser. Available in numerous sizes, each Vibia Wireflow Lineal suspension offers a different number of light sources. The 0320 Suspension features two LED lamps, the 0325 Suspension has six and the 0330 boasts ten.

The Vibia Wireflow Lineal hanging lamps race pure minimalist forms in two dimensions, creating a captivating graphic feel. Each of these designs manages to make a statement that becomes obtrusive in your interior. The smaller variants of this suspension light are perfect for residential spaces, whereas the larger Wireflow 0330 Suspension is best used in larger commercial spaces where it can reach its full potential. A beautiful addition above accent pieces, such as a dining table, kitchen island, countertops or bars.
