PRODUCT DESCRIPTION

Designer: Sergio Prandina

Gong Mini S1 Pendant by Prandina

Designed by Sergio Prandina, the Gong Mini pendant develops the ideas behind the original [Gong pendant](#) even further, creating more possibilities for an already versatile lamp by introducing a new ceiling connection system and a wider variety of installation sizes.

Where the original Gong pendant emphasised the ability of glass to be transformed and decorated to fit any environment, the Gong Mini emphasises the ability of Gong itself to be combined and rearranged for maximum versatility. Single pendants are available with three separate ceiling connections – a standard ceiling rose, mini canopy, and lateral cable system – alongside a number of customisable multi-light compositions. Combine up to five lights with a lateral cable ceiling connection or multiples of three, five, seven, or nine with either a round or square ceiling rose to create a solution which is tailor-made for your space. The Gong Mini is perfect for illuminating a wide variety of environments, be they residential or commercial, and is especially suited to hospitality settings such as hotels and restaurants where a large space nonetheless necessitates an intimate atmosphere.

The single-light variants are available for purchase above; please [contact us](#) for details and prices of multi-light variants. There is also an [LED version](#) of this pendant, as well as a [table lamp](#) and a [wall light](#).

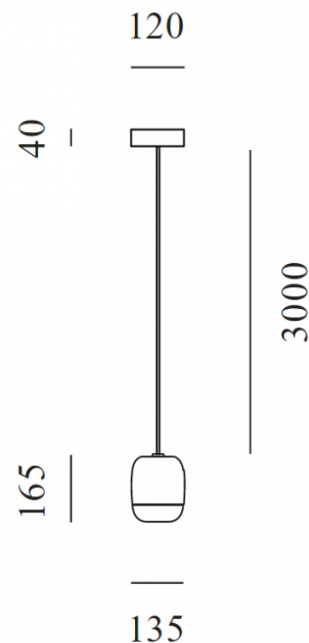

PRODUCT SPECIFICATION

Light Source: 1 x HSGT G4 20W max (excluded)
