PRODUCT DESCRIPTION

Soft Spun Floor Lamp by Flos

The Soft Spun series by Flos is a range of luminaires made from plaster with a minimal profile thanks to the flush plasterboard installation. Creating a three dimensional effect, the opal thermoplastic diffuser provides a diffused and soft glow to surroundings.

Originally inspired by Sebastian Wong's [Spun lamp](#), the simplicity and modernity of the design is clearly reflected in the Soft Spun floor lamp, now only revealing half its profile.

The [Soft Spun range](#) is made from plaster, and can be painted to suit individual decor, or left white to minimise visual impact on a space. The range also includes a table lamp, and both the table and floor lamp in an LED version.

PRODUCT SPECIFICATION

Light Source: 1 x R7s 160W max (excluded)

IP Code: 20

Dimming: Dimmable via mains phase dimming

Dimensions: 200cm height
80cm width
25cm depth
