PRODUCT DESCRIPTION

Soft Spun LED Table Lamp by Flos

The Soft Spun LED table lamp by Flos has a minimal and modern design, originally drawing its inspiration from Sebastian Wong's [Spun lamp](#). Providing diffused light, the Soft Spun LED table light updates the profile of the original Spun light, only revealing half its profile.

Requiring plasterboard installation, the table lamp can be painted to match any decor thanks to its construction material (plaster) or can remain white to blend into its surroundings. This table light perfectly suits a table situation in a hallway, landing, or as a bedside table lamp as it takes up no space on a side table.

The [Soft Spun range](#) also includes a floor lamp and an halogen version of the Soft Spun in both table and floor versions.
