PRODUCT DESCRIPTION

Soft Spun LED Floor Lamp by Flos

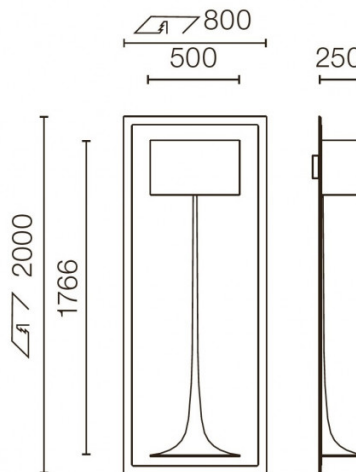

The Soft Spun collection of lights by Flos was inspired by the original Spun lamp designed by Sebastian Wong. The Soft Spun range reflects the simple design of Wong's [Spun lamp](#) but reinvents its usage, with the Soft Spun lamps being mounted directly to the wall with only a half profile revealed.

The Soft Spun LED floor lamp requires flush installation into a plasterboard wall, and so is perfect for lighting hallways or as a floor lamp in a living area. Providing a diffused soft glow, the Soft Spun floor light can also be painted to suit internal decor, or left white as a contrast or to have minimal impact on a space.

The [Soft Spun family](#) also includes a table lamp and a halogen version of the Soft Spun in both table and floor versions.
