Designer: B. Baylar

Terzani Calle Suspension Light

Terzani Calle Suspension Light has been designed by B.Baylar. Crystal crafting has become a skill which is needed to create these idyllic shades. The graceful inverted lamp was designed with a lily-shaped shade, emitting a sense of delicate sophistication. Each shade is suspended on barely visible cables to appear as if floating in mid-air.

Calle Suspension Light has six available display options for this shade, a singular pendant, three chandelier options and two linear options. You can also strategically position the singular pendants to produce an aesthetically pleasing cluster effect. This delicate suspension light can be featured in both commercial and residential environments in reception areas or above stairwells.
