PRODUCT DESCRIPTION

Designer: Omer Arbel

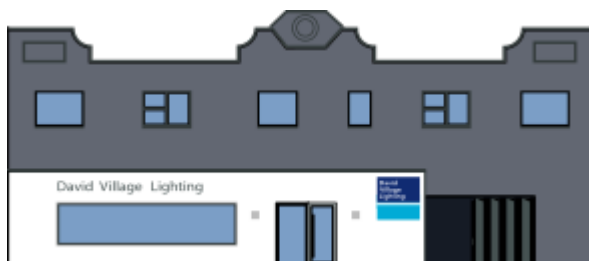

28s Wall and Ceiling Light by Bocci

A part of the [Bocci 28 series](#) by Omer Arbel, the 28s ceiling/wall light is made from clear glass with a milk white lamp holder which diffuses the light bulb to create a soft and warm illumination that is atmospheric. The wall/ceiling lamp is made using a glass-blowing technique which creates cavities in the glass, creating an interesting and unique look.

The 28s surface light can be used in many interiors, whether you need to line your hallway or want a handy office light. You can use the surface lamp alone in smaller spaces or in multiple in larger spaces. The ceiling and wall light comes with a light bulb included in the purchase and you can choose between the dimmable **Xenon 20W** bulb or the non-dimmable **LED 1.5W**. Both bulbs last long and will guarantee an effective glow.
