PRODUCT DESCRIPTION

Designer: Dodo Arslan

Terzani Argent Pendant Light

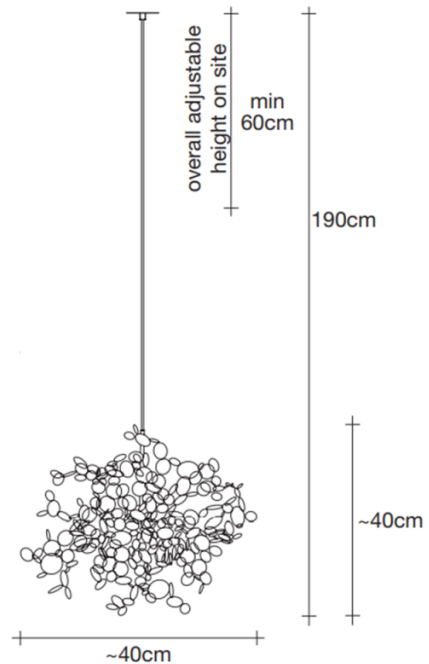

The Argent Pendant was designed by Dodo Arslan for Terzani. Each Pendant has been crafted from a stainless steel metal frame with discs attached to branches to create a sparkling, silver display. The angled surfaces of the silver discs create an array of light in all directions, much like a disco ball. With a drop height of 190cm, this pendant is ideal above a coffee table, dining table or kitchen island.

Terzani Argent Pendant can be strategically positioned to produce an aesthetically pleasing sequence, resulting in a clean and striking ensemble which can be featured in both commercial and residential environments. This pendant adds an element of class and sophistication, in both sizes.

Also available in Gold plated finish. For further details, pricing and orders please [contact us](#).
