PRODUCT DESCRIPTION

Designer: Manuel Vivian

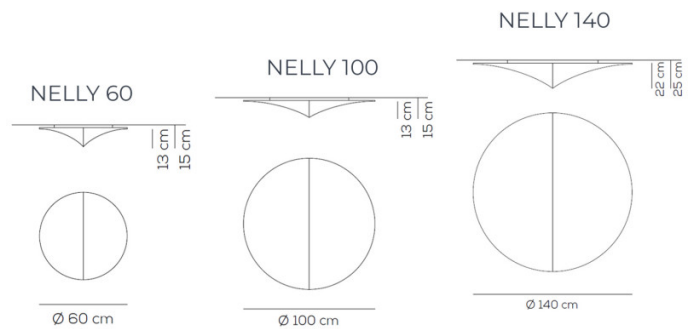

Nelly Ceiling/Wall Light by Axolight

The Nelly Collection was designed by Manuel Vivian, for Axolight. The lights are based on pure geometry, a perfect circle like a white canvas; its continuity is only interrupted by a line a cross, meant to bring emphasis on its details and reflections. Nelly Round is available in two sizes, with a diameter of 60cm or 100cm and in either white or white pattern finish. The light is diffused through an elastic fabric, which can be removed and washed. While the Nelly can work beautifully on its own, you may choose to install multiple lights of different sizes and create your own unique arrangement of light. Whether on the ceiling or the wall, the Nelly round lights will bring a tranquil feel into any interior, both residential and commercial.

The collection also includes the [Nelly Straight](#), exploring a different geometric shape: the square.
