Prandina Notte Glass LED Pendant

PRODUCT DESCRIPTION

Designer: Mengotti/Prandina

Notte Glass LED Pendant Light by Prandina

A part of the Prandina Notte collection, the Notte Glass LED pendant is a stunning light that is both aesthetically pleasing and energy-saving. The lampshade is made from blown glass which has a painted finish both on the outside and the inside. This allows for a warm glow as the light reflects off the white or gold leaf inside which pairs with a variety of lovely finishes on the outside.

The pendant has a downward directed light, making it good as a main light or hanging over tables. The Notte Glass LED pendant light comes in 6 finishes and 4 sizes so you can choose the best one for your space and décor. You can either buy a variety to cluster together to create a contrasting light feature or buy some to put in a row. The stylish, decadent design and the ease of function of this pendant light make it not one to miss!

This version of the Notte Glass LED pendant is non-dimmable. To enquire or order a dimmable LED version please contact us.
