PRODUCT DESCRIPTION

Designer: Ronan & Erwan Bouroullec

Aim LED Pendant Light by Flos

The Flos Aim pendant light was designed by the collaborative team of brothers Ronan and Erwan Bouroullec in 2013. As rising stars of European design, Ronan and Erwan Bouroullec strive to combine both romanticism and functionality into their designs, which is evident throughout both brothers' work in the lighting design industry.

The Aim suspension is able to be configured and draped around a room in any way imaginable, enabling the user to have complete creative freedom. The innovative and playful nature of the Aim pendant light is complimented by the industrial character of the design, and with the additional use of a [multiple ceiling rose](#) up to five standard size Aim pendants or five mixed Aim pendants can be hung from one central ceiling point, allowing the creation of a fantastic lighting display sure to effectively illuminate your space but to also captivate visitors.

The Aim pendant light has an integral LED light source which is diffused and provides an even and practical light emission. Available in two sizes and finishes, the Aim pendant light is a versatile and modern suspension light for your home or commercial space.
