PRODUCT DESCRIPTION

Designer: Ronan & Erwan Bouroullec

Aim LED Small Pendant Light by Flos

The Aim small pendant light designed by Ronan and Erwan Bouroullec for Flos is a playful and innovative design with an industrial character. The Aim small suspension comes with a total of 9 meters of cable, enabling the user to suspend the lamp 3 meters from the ceiling. This long length of cable allows the Aim small pendant light to be suspended from the ceiling and draped in a variety of ways for total creative freedom.

With an integral LED light source, the Aim pendant effectively illuminates both residential and commercial spaces with a diffused and even light emission. As part of the Aim collection, a [multiple ceiling rose](#) can be purchased separately allowing up to five standard size Aim pendants or five mixed size Aim pendants to be hung from one central ceiling point.

The Flos Aim pendant light was designed by the collaborative team of brothers Ronan and Erwan Bouroullec in 2013. As rising stars of European design, Ronan and Erwan Bouroullec strive to combine both romanticism and functionality into their designs, which is evident throughout both brothers' work in the lighting design industry.

PRODUCT SPECIFICATION

- Light Source:** 12W, 2700K, 725 Lumens
- IP Code:** 20
- Dimming:** Dimmable via Triac dimming.
- Dimensions:** Ø17cm
