PRODUCT DESCRIPTION

Designer: Sir Kenneth Grange

Type 1228 Wall Light by Anglepoise

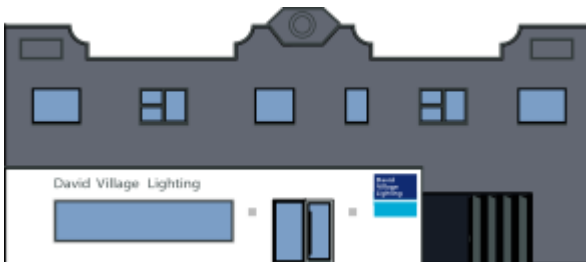

The Type 1228 wall light was designed by Sir Kenneth Grange as part of the [Anglepoise Type 1228 Collection](#), which was launched in 2004. A modern take on the classic Anglepoise design, the Type 1228 wall lamp is timeless and iconic.

With an adjustable shade, this wall light can be directed wherever you like, whether you want the light to complete a task or if you want to create dynamic wall spotlight. The shade is also very remarkable as it becomes translucent when turned on, giving the illusion of a slight colour change. Available in an ice white finish, the Type 1228 wall light will impress and can fit into many design schemes both at home and at work.
