PRODUCT DESCRIPTION

Designer: Monica Armani

Silenzio LED Suspension by Luceplan

The Silenzio LED Suspension was designed by Monica Armani for Luceplan in 2013. Rugged yet elegant, this light is upholstered in the beautiful Kvadrat Remix fabric and truly encompasses contemporary design. This fabric is elegant yet durable, distinguished by exceptionally vivid colours and designed by Giulio Ridolfo. Remix 2 looks unicoloured from a distance but reveals subtle details and colour contrasts when viewed close-up, adding a level of depth to the Silenzio Suspension. The Silenzio is sound absorbent, enhancing the ambience of the room and making it perfect for public spaces or areas in your home where you regularly host guests. The built-in LEDs emit a gentle warm white colour, whilst the grooved inside surface of the shade provide optimal light reflection, brightening your entire space and creating a fabulous lighting effect with a cosy touch.

This light also offers the option of an additional bottom screen that is used to diffuse light output, this is not a required aspect of this luminaire but can be purchased as an accessory.

Available colours: Light Grey, Dark Grey, Rust and Sand.
Wide range of colour schemes available on request, with a surcharge.

Available in three sizes.

PRODUCT SPECIFICATION

Light Source: **Small**
