PRODUCT DESCRIPTION

Designer: Jonas Bohlin

Orsjo Belysning Star 6 Ceiling Light

The Orsjo Belysning Star 6 Ceiling Light is a modern classic with a clean design, made from brass. The real selling point for this light is the six individual light sources, which are all easily adjustable and project their own large span of light. They can also be combined to make a longer run of lights for larger spaces such as restaurants or bars.

Jonas Bohlin has become one of Sweden's most famous designers. He always crosses borders with his work and since the beginning of his career the emotion in his designs has been the very means for his success.

This product can be installed either horizontally or vertically. There is also the option to suspend this light on wires as seen in photos.

Brackets are included in the Star 6. Suspension wire and light sources are sold separately.
