PRODUCT DESCRIPTION

Designer: Box Arkitekter

Orsjo Belysning PJ80 Floor Lamp

The PJ80 Floor Lamp was inspired by the 1940's work of PeFeGe Eriksson and their industrial work lamps. Box Arkitekter updated the classic design to meet modern day needs. The lamp hosts an easily adjustable body that generates extensive movement - creating a direct light source and making it a perfect task light.

This piece would be a great addition to your living room or office, specifically as a reading light. It is the perfect solution for next to your sofa and combines a bold yet warm light with an elegant and timeless design. The PJ80 is beautifully crafted and has truly stood the test of time, it is a classic statement piece.

The purpose of these task lights is to create a comforting direct light that is perfect for workspaces without being too clinical or harsh. And this is why the PJ collection soon became an office classic. [Explore the PJ collection today.](#)
