PRODUCT DESCRIPTION

Designer: Constantin Wortmann

KDLN Spillo Outdoor Lamp

The Spillo outdoor collection features a floor lamp, a fixed base, and a peg base. The option of the base allows you to choose how you would like to place this light in your outdoor space. From the floor lamp with a Ø35cm base to the fixed base that fixes the lamp to the ground and then the peg base that can be pulled into the ground and secured. This gives you many ways in which you can enjoy the design of the Spillo Outdoor lamp.

This KDLN floor lamp was designed by Constantin Wortmann and is designed to imitate the simplicity and elegance of fluid. The unique shape of the shade mimics a droplet, one of nature's simplest forms and the inspiration behind the design. Place this lamp in your garden seating area or along a pathway or drive to illuminate your outdoor space.
