PRODUCT DESCRIPTION

Designer: Pio & Tito Toso

Artemide Meteorite Ceiling / Wall Light

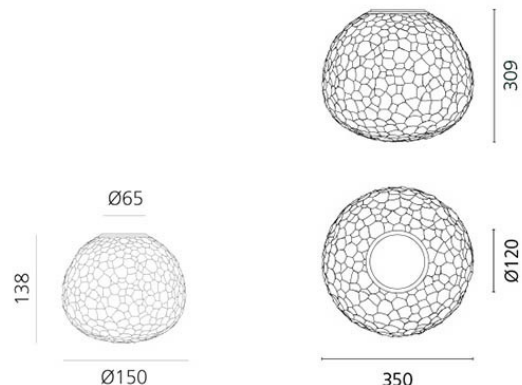

Brothers and architects Pio and Tito Toso designed the Meteorite lights, using a new and special technique. They took the traditional blown glass process one step further, with the Venetian 'beaten' glass. The process allows for a raw, unfinished-like texture on the end product. Its name and appearance, as one might guess, come from the glass-like pieces of rock that travel through outer space.

The diffuser on the Meteorite lights, which includes wall, suspension, ceiling and table lights, is double-layered glass. The glass was first blow moulded and then frosted. The designers managed to give the light a spectacular lighting depth. They also won the Red Dot Design Award in 2015 for the Meteorite collection. The Meteorite light emits a soft and diffused light and is available in two sizes.

Please note that the Meteorite 15 is **IP44** rated, allowing you to install in bathrooms (zone 1 and 2 only).

PRODUCT SPECIFICATION

- Light** Meteorite 15 - 1 x 4W LED DIM E14 (excluded)
- Source:** Meteorite 35 - 1 x 21W LED DIM (excluded)
- IP Code:** 20 [Meteorite 15: IP44]
- Dimming:** Dimmable via mains phase dimming.
- Dimensions:** Meteorite 15 - Ø15 cm, 13.8cm H, Ø6.5 cm
ceil.rose
- Meteorite 35 - Ø35cm, 30.7cm H, Ø12 cm
ceil.rose
