## PRODUCT DESCRIPTION

**Designer:** Jorge Pensi

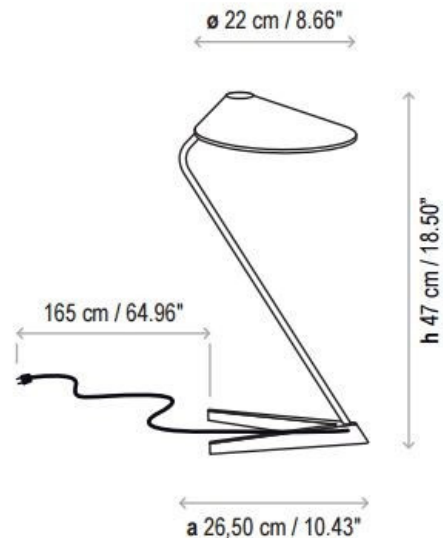

### Bover Non La T LED Table Lamp

Designed by Jorge Pensi for Bover, the Non La LED Table Lamp is an influential contemporary design. It features an asymmetrical conical shade made of aluminium and is available in either **Chrome**, **Copper**, or **White Lacquer** finish. The Non La LED Table got its name from the traditional Vietnamese hats worn by women to protect themselves from harsh weather and to carry food. Non La pays homage to a centenary culture.

The Non La Table Lamp is both stylish and practical, proving that you don't have to sacrifice beauty for functionality. Non La fills your space with a direct down light, which can be dimmed to personalise your environment as you wish. This table lamp makes a gorgeous task light in your workspace, an ambient reading lamp next to your sofa, or can even help you unwind after a long day when placed on your bedside table.
