

MUUTO**Muuto Stacked Storage System****LA10073**SOURCE: <https://www.davidvillagelighting.co.uk/product/Muuto-Stacked-Storage-System/16363>**PRODUCT DESCRIPTION****Designer:** Julien De Smedt**Stacked Storage System by Muuto**

A shelving system that can only be personalised, allowing you to store and display anything you wish. You can create your own by combining the different shapes and sizes of shelves/cubes and select whether to place them on top a podium, free standing or mount it to the wall. The cubes come in three sizes and shapes, based on generic measurements, and you can choose between an oak, white, light grey or grey colour. You can also select to have a backboard and choose whether its coloured (option of Oak/grey or Oak/dusty green) or not. The clip, which comes in a matching colour to the shelf, will securely hold the neighbouring cubes in place. Each cube comes with one clip, but you purchase separately a box of 5 spare clips.

The combinations are infinite. You can create a small storage system by your entrance for your shoes, or create a larger abstract system in your living room and store all your books and display your prized possessions. It can be a multi-functional furniture, store things and books, display your favourite objects, and use it as a room divider or a small side table. The possibilities are endless!

Muuto also gives you the choice to install acoustic, sound absorbing panels to the cubes and create small enclosed cabinets. The panels are available in aqua melange, black melange or grey melange. The panels make the storage system a perfect choice for working environments whilst adding storage for the office.

Please Note: Each shelf/cube is individually priced, the price displayed above represents the smallest cube available.
