PRODUCT DESCRIPTION

Designer: Francisco Gomez Paz

Tango Floor Lamp by Luceplan

Tango is a floor lamp designed by Francisco Gomez Paz for Luceplan. Mounted on a triangular steel base, the Tango Floor Lamp is an innovative design that maintains its posture whilst still allowing flexibility. The black aluminium frame ensures the lamp is stable, but the use of elastomer joints makes sure that the lamp does not appear too rigid - due to the movable joints, the direction of the light can also be changed. It is possible to direct the light where it is needed by tilting the frame, and the light intensity can be regulated from 20% to 100% in three levels by a sensor dimmer/footswitch located on the electrical cable.

Fitted with linear LEDs, the reflector of the lamp emits diffused, indirect light thanks to the screens in moulded methacrylate. The Tango makes a great atmospheric lighting choice in your hallway, living room or bedroom. It can also be a great fit for public spaces such as restaurants, galleries or hotel lobbies.

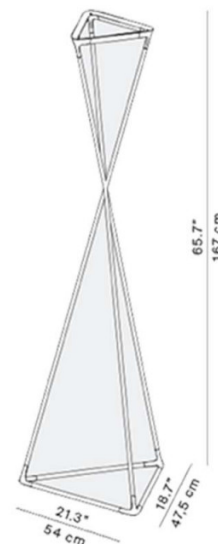

PRODUCT SPECIFICATION

Light Source: 35W, 3000K or 2700K, 2325 Lumens

IP Code: 20

Dimming: Integrated dimmer on the product.

Dimensions: Height: 167cm
Base: 54cm x 47.5
Cable Length: 305cm
