PRODUCT DESCRIPTION

Designer: Christian Ploderer

CPL F1 Floor Lamp by Prandina

Designed by Christian Ploderer, the CPL F1 floor lamp is characterised by its vertical cylinder shade, made from beautiful blown glass to produce an elegant and stylish lamp. The structure is made from either chrome or brushed nickel metal paired with either an opal white or crystal shade so you can find the right aesthetic to match your interior design.

The CPL F1 floor light emits an ambient light that comes out of the top and bottom of the shade to produce a good overall illumination that will fill the room. This floor lamp is also dimmable, allowing you to create the right atmosphere. Perfect for the home and commercial spaces, this floor light will look good in a wide variety of rooms. To make a real impact match with other lights from the [Prandina CPL collection](#).
