PRODUCT DESCRIPTION

Designer: Sergio Prandina

Chan Chandelier Light by Prandina

The Prandina Chan collection consists of over 10 different chandeliers all made using a steel structure with blown glass diffusers hanging at the end of each wire. The chandeliers range from having 6 to 13 individual lights and each chandelier comes with either straight or bent wires in different combinations. You can choose between a retro-fit Chan light, where you put in the bulbs yourself, or you can choose a LED Chan light which has integrated LED light sources in each diffuser, which is more energy-saving.

Each chandelier is available in either a white painted steel colour or a brass galvanised steel colour. The Chan lights are beautiful, classy and elegant and look stunning in a variety of settings. The chandelier will catch the eye and will also provide a far-reaching light to fill the room. With the choice of sizes going from 6 lights to 13 lights, you can find the right size for big and small spaces alike so you don't have to miss out on a touch of luxury!

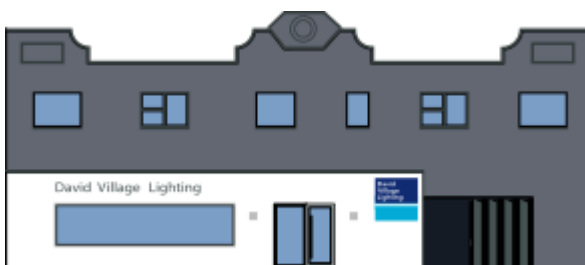

PRODUCT SPECIFICATION
