PRODUCT DESCRIPTION

Wastberg Busby W152B1

Free Standing and Wall Mounted. For a long time, lamps have been an electrical experience - the light being evidence of electrical current passed through a filament. But now modern lighting has become unrecognisable, no longer the subject of electricity, but of electronics. w152 Busby is an electronic lamp that provides intelligent universal power from three USB outlets, detecting charging requirements and managing them at their fastest rate, however many variable devices are plugged in. It provides up to 3 Amps of power - enough to charge the latest generation of laptop computers.

Charge 3 USB devices at the fastest rate.

The lamps can be rotated 360 degrees for glare control and light direction.

PRODUCT SPECIFICATION

Light Source: 6W, 690 lumens, 2700k

IP Code: 20

Dimming: Programmable microswitch: click for on/off; hold down the button to set brightness level; release for on/off brightness setting.
