PRODUCT DESCRIPTION

Fontana Arte Pinecone Suspension. The diffuser is manufactured using the ancient caged blown glass technique: the glass maker blows the molten glass blob into a metal cage, which only partly contains the blob's natural expansion. In this way, the glass surface is partly trapped by and partly escapes the cage, generating an impression of tension creating a striking impact either switched on or off.

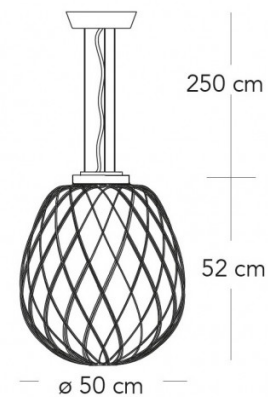

Transparent blown glass diffuser or milky white acid-etched diffuser. Nickel-plated metal cage. Transparent power cord. Steel suspension cable. White ceiling rose.
