PRODUCT DESCRIPTION

Designer: Giovanni Barbato

Hoops Ceiling Light by Axolight

Designed by Giovanni Barbato for Italian company, Axolight, the Hoops ceiling light are instantly recognisable. Comprised of interchangeable elements, the ceiling light is available in two sizes (Hoop 2 and Hoops 3) while you can choose between three colour options, gold, white or black. The metal rod is shaped like a ribbon floating and spinning in the air, as if frozen in time. The ribbons are dancing mid air, around the integrated LED source. Hoops ceiling light emits a downwards and upwards light, while the metal rods create a playful game of shadows on the surroundings.

Hoops ceiling light can be installed in any interior space, whether your home or business, or in hospitality. The choice of colours allows you to pick the perfect light to match your decor. Whether installed as a standalone or with more Hoops ceiling lights, this is definitely a light that will impress. A high efficiency LED source, and dimmable so that you can adjust the brightness of the light, depending on the use and instantly create a stunning atmosphere. The Hoops Collection also includes a [suspension light](#), available in four sizes.
