Axolight Fedora Recessed Light

LA4209

SOURCE: <https://www.davidvillagelighting.co.uk/product/Axolight-Fedora-Recessed-Light/17020>

PRODUCT DESCRIPTION

Designer: Dima Loginoff

Fedora Recessed by Axolight

The only recessed light in the Fedora collection, while the other lights are primarily suspensions and retain a shape that references the matryoshka, an old Russian doll. Dima Loginoff created the Fedora lights for Axolight. It is instantly apparent that Dima draws inspiration from the Russian culture and heritage. The name itself, is an old and forgotten Russian name, the Russian version for the Thedora.

The Fedora recessed light has a transparent glass diffuser, with 8.2 cm diameter. Axolight advise that all Fedora lights should **only** be used with LED lamps. The lights emit a beautiful and warm downlight, and when multiple Fedoras are installed you can create a stunning effect. Fedora lights are ideal for both residential and commercial projects, and in hospitality. Whether in hallways or entrance areas, the Fedora lights create a dazzling effect that is guaranteed to impress.

The other lights within the [Fedora Collection](#) include suspension lights with 1, 3, 6 or 12 lights suspended from a round canopy or 7 lights in line, from a rectangular canopy.
