Artemide Equilibrist LED Table Lamp

David Village Lighting

SOURCE: https://www.davidvillagelighting.co.uk/product/Artemide-Equilibrist-LED-Table-Lamp/17075

PRODUCT DESCRIPTION

Designer: Jean Nouvel

Equilibrist by Artemide

Resembling a seesaw, the Equilibrist balances two separate lamps on each side, one square and one round. Each lamp is looking for the perfect balance, an equilibrium. Both heads can rotate and revolve independently, echoing a modern, high-tech semaphore or traffic light. The Equilibrist lamp was designed by French architect, Jean Nouvel, whose designs correspond not to the needs but to the bare nature of light, and what it can become. The design earned Nouvel the 2015 Wallpaper Design award.

You can dim each segment of the lamp separately, with an integrated dimmer at the top of each head. The two lights emit a slightly different light, one more ambient and the other, more powerful can function as a task light. The lamp is available in black finish, with an aluminium and zamak structure.

PRODUCT SPECIFICATION

Light 12W, 3000K, 240 lumens (round head) + 380

Source: lumens (square head)

IP Code: 20

Dimming: Integrated dimmer included on product. Separate

for Round and Square head.

Dimensions: 63.9 cm height

85 cm length 10 cm width

10 cm square head Ø 11 cm round head
