PRODUCT DESCRIPTION

Designer: Marcel Wanders

Faroo by Moooi

The word Faro means lighthouse in Italian and that is where Marcel Wanders took inspiration from for his design. A lighthouse functions as a guide to all ships located near dangerous coastlines. A lighthouse is a beam of light, guiding sailors and ships since the antiquities.

Faroo is just that, a beam of light that leads everyone to safety. The floor lamp comes in three sizes, small, medium and large and in an all white finish. It has a curved body, almost ornamental, and a contemporary shade that completes the light. Faroo is also dimmable, with an in line dimmer on the cable, so that you can adjust light intensity (in conjunction with a dimmable light source). The lamps draw all eyes with their size and sinuous design, suitable for both residential spaces and in hospitality.
